K.I.C

KIELY INDUSTRIAL COATINGS

Generation Spraying. Proven Protection.

CAPABILITY STATEMENT

Kiely Industrial Coatings (K.I.C) applies industrial wet paint and two-pack coatings on your site, across the UK. Airless spray on steel and walls, rolled coatings on floors, prepared and finished properly, with a clear written quote before we start.

WHAT WE COAT

- Metal roofs (profiled steel)
- External cladding and walls
- Steel trusses, frames and structural steel
- Silos, tanks and plant
- Warehouse and industrial floors (rolled epoxy)
- Doors, windows, loading bays and edges

SITE SERVICES

- Surface preparation and washdown
- Rust treatment and recoating
- Gutter clearance and coating
- Fastener and cut-edge protection
- Anti-graffiti coatings
- Skip and container refurbishment

SCOPE

Industrial paint coatings only, applied by airless spray, with floors rolled. We do not apply rubber or liquid waterproof membranes or cementitious screeds, and we do not work on asbestos or cement-sheet roofs. Specialist plant and access equipment are hired for each job, so you pay for what the job needs.

GENERATION SPRAYING

Over 30 years' experience in industrial coatings. Our family has worked in industrial finishing for generations, including Stoving Ability Ltd, Flowguard Finishing Ltd and Flow Finish Ltd. That experience is behind every coating we apply.

OUR COATING SYSTEMS

1	**Trade standard and cosmetic refresh** (Sherwin-Williams) Lease returns, agricultural barns, light commercial storage.
2	**Heavy industrial anti-corrosive** (Sherwin-Williams) Cladding, steel portal frames, silos and tanks.
3	**Premium two-pack protection** (Jotun) Heavy workshops, plant rooms, high-abrasion exteriors.
4	**Floor systems, roller applied** (Sherwin-Williams) Warehouse floors, loading bays, shopfloors, walkways.

HOW A JOB RUNS

1. Send us the site, the surface, the area and photos. Email or WhatsApp.
2. We reply with a written, priced quotation.
3. Deposit on acceptance. We issue a site-specific RAMS.
4. Washdown, degrease and rust removal back to clean metal.
5. Airless spray of the agreed coating system. Floors are rolled.
6. Six-point walkthrough, certificate of completion and aftercare guide.

TERMS

Deposit on acceptance: 50%, or 70% on jobs under £15,000. Larger jobs can be paid in stages.
Balance due on handover.
Warranty confirmed in writing on your quotation.

SAFETY

Site-specific RAMS issued before we mobilise.
Access plant hired with operators for work at height.
Insurance confirmed in writing with your quotation.

BOOKING FROM JANUARY 2027
Send us your site details for a written quotation.
